

Workshop on Pan-European Routines for Master Key Systems (MKS)

Salzburg (Austria), 14th September 2017, 9.00 am to 12.00 am

This workshop will follow up on the outcome of the discussions on Pan-European Routines for Master Key Systems (MKS), which was held during the ARGE Conference 2016 in Le Touquet, France (<http://arge.org/resources/downloads.htm>).

During this workshop we will assess the actions done since, and will address the further development of the project (<http://arge.org/news/arge-workshops-next-steps-revealed>). The output of the workshop will be presented during the ARGE Conference 2017 on Friday morning.

The purpose of this initiative is to create an industry wide understanding and guideline for the handling of MKS Data related to security requirements. This includes the planning and calculation of MKS but also its encryption, transmission and storage between manufacturers, locksmiths/ dealers and end users.

The deliverable of this workshop will be an outline of how this initiative will be structured, including an action plan with specific milestones.

Workshop Convener: Urban Doverholt, MD ASSA Group
